HTML WEBSITE CODES AND OUTPUTS

Three responsive web projects with webpage previews and complete source code.

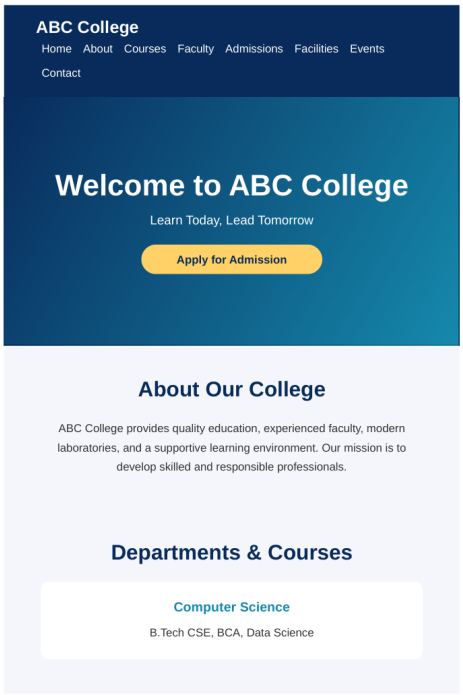

Included projects

1. College Information and Admissions Website — college.html
2. Business Analytics Dashboard — dashboard.html
3. User Registration and Login Interface — login.html

How to use: Copy the code for each project into Notepad, save it using the filename shown, and open it in a browser. Dashboard figures are sample data. The login and recovery forms are front-end demonstrations only and do not provide real authentication.
